## **LEED Green Specialty Contractors; Restoration Environmental Contractors - REC Demolition - REC Disaster Recovery Are Proud To Announce Their 20th Anniversary! REC Are Proud To Be Green LEED Qualified Specialty Contractors, For Demolition and Environmental** - Tuesday, Mar. 17, 2009

TORONTO, March 17 /PRNewswire/ - "Restoration Environmental Contractors REC Demolition are announcing our 20th Anniversary this year of being Green, now LEED qualified specialty contractors on the greenest day of the year, St. Patrick's Day! States Don Bremner, President CEO, "We have had great success, REC achieved 94.7% per cent LEED certification, at the Regent Park, the Toronto Revitalization environmental remediation and demolition project, by enforcing the three R's: reduce, re-use, recycle, and we had great results of over 75% success rate at the Queen's University Jock Harty Demolition project with PCL Constructors in Kingston.

Since 1989, Restoration Consultants - Restoration Environmental Contractors REC Demolition have successfully completed over 9,000 environmental remediation and demolition projects throughout Canada, specializing in environmental remediation, asbestos removal, lead abatement, mold remediation, industrial plant cleaning, decommissioning closures, site remediation and disaster recovery in the industrial, commercial, government, and institutional sectors.

Restoration Environmental Contractors senior project management and site supervisory team has accumulated more than one million hours (1,000,000 hours) of on-site environmental remediation contracting experience in the removal of all hazardous materials, including; asbestos, mould, lead dust, PCBs, heavy metals, plant decommissioning, site decontamination, soil remediation, and demolition.

REC Restoration Consultants and Restoration Environmental Contractors is a full-service emergency response contractor committed to excellence in health and safety whose record is impeccable. REC's strength lies with its highly trained people, and has over 100 unionized professionals on call to address a variety of needs.

REC's reputation has been established by the quality of the services it provides and by relationships built on trust. This philosophy has become the cornerstone of its business.

Because each environmental and demolition project is unique, REC assembles a specific team of professionals that will bring the desired solutions to the project. REC has the vision and the experience to deliver quality environmental and demolition services at a competitive price to meet every business need.

Restoration Environmental Contractors - REC Demolition - REC Disaster Recovery REC provides remediation options tailor-made for each project from the start, whether they are emergency service calls, small maintenance calls, or multi-million dollar demolition and environmental abatement projects. REC believes that the process should be simple, so the company creates options that offer sound environmental solutions.

REC can meet the needs of businesses planning a plant closure, an abatement, environmental, demolition or restoration project. REC can help businesses prepare for a disaster or emergency. REC can also provide on-call Emergency Response services.
